CONTENTS OF HEREDITAS, VOLUME 125:1–3 (1996)

257 BERTOLOTTO, C.E.V., RODRIGUES, M.T., SKUK, G. and YONENAGA-YASSUDA, Y.: Comparative cytogenetic analysis with differential staining in three species of *Liolaemus* (Squamata, Tropiduridae)

147 BRÜNNER, H. and HAUSSER, J.: Genetic and karyotypic structure of a hybrid zone between the chromosomal races Cordon and Valais in the common shrew, *Sorex araneus*

47 CHEN, X.-Y., LIN, P. and LIN, Y.-M.: Mating system and spontaneous mutation rates for chlorophyll-deficiency in populations of *Kandelia candel*

201 CHĘTNICKI, W., FEDYK, S., BANASZEK, A., SZAŁAJ, K.A. and RATKIEWICZ, M.: Morphometrical characteristics of the common shrews (*Sorex araneus* L.) from interracial hybrid zones

289 COLOMBO, P.C. and CONFALONIERI, V.A.: An adaptive pattern of inversion polymorphisms in *Trimerotropis pallidipennis* (Orthoptera)

123 FREDGA, K.: The chromosome races of *Sorex araneus* in Scandinavia

247 FREDGA, K.: A new chromosome race of the common shrew (*Sorex araneus*) in the Kanin peninsula, NW Russia. (Brief report)

191 FUMAGALLI, L., HAUSSER, J., TABERLET, P., GIELLY, L. and STEWART, D.T.: Phylogenetic structures of the Holarctic *Sorex araneus* group and its relationships with *S. samniticus*, as inferred from mtDNA sequences

61 GILEVA, E.A.: The HSR chromosome 1 in the house mouse, *Mus musculus* from regions of the Urals polluted by mutagens

31 GROZEVA, S. and NOKKALA, S.: Chromosomes and their meiotic behavior in two families of the primitive infraorder Dipsocoromorpha (Heteroptera)

297 HAVEL, G., WEDELL, B., DAHLENFORS, R. and MARK, J.: Origin of an oral adenocarcinoma as suggested by cytogenetical observations. (Brief report)

53 HOLM, S. and GHATNEKAR, L.: Apomixis and sexuality in hexaploid *Potentilla argentea*

77 HOLM, S. and GHATNEKAR, L.: Sexuality and no apomixis found in crossing experiments with diploid *Potentilla argentea*

37 KASAHARA, S., PELLEGRINO, K.C.M., RODRIGUES, M.T. and YONENAGA-YASSUDA, Y.: Comparative cytogenetic studies of eleven species of the *Tropidurus torquatus* group (Sauria, Tropiduridae) with banding patterns

239 KOROLEVA, I.V., MALCHENKO, S.N., BRUSGAARD, K., MATYAKHINA, L.D., COLONIN, M.G., PACK, S.D., SEARLE, J.B., BORODIN, P.M., SEROV, O.L. and BENDIXEN, C.: Chromosome localization of the gene for ornithine transcarbomylase in the common shrew (*Sorex araneus*)

89 LANDBO, L., ANDERSEN, B. and JØRGENSEN, R.B.: Natural hybridisation between oilseed rape and a wild relative: hybrids among seeds from weedy *B. campestris*

69 LI, Z.Y., LIU, H.L. and HENEEN, W.K.: Meiotic behaviour in intergeneric hybrids between *Brassica napus* and *Orychophragmus violaceus*

159 LUGON MOULIN, N., WYTTENBACH, A., BRÜNNER, H., GOUDET, J. and HAUSSER, J.: Study of gene flow through a hybrid zone in the common shrew (*Sorex araneus*) using microsatellites

233 LUKÁČOVÁ, L., ZIMA, J. and VOLOBOUEV, V.T.: Karyotypic variation in *Sorex tundrensis* (Soricidae, Insectivora)

225 MACHOLAN, M.: Chromosomal and allozyme characterization of the Caucasian shrew, *Sorex satunini*, from north-eastern Turkey

243 MALCHENKO, S.N., KOROLEVA, I.V., BRUSGAARD, K., MATYAKHINA, L.D., COLONIN, M.G., PACK, S.D., SEARLE, J.B., BORODIN, P.M., SEROV, O.L. and BENDIXEN, C.: Chromosome localization of the gene for growth hormone in the common shrew (*Sorex araneus*)

299 MATZK, F.: The 'Salmon system' of wheat — a suitable model for apomixis research
265 MORGAN-RICHARDS, M. and GIBBS, G.W.: Colour, allozyme and karyotype variation show little concordance in the New Zealand Giant Scree Weta *Deinacrida connectens* (Orthoptera: Stenopelmatidae)
285 MYLLYHARJU, J. and NOKKALA, S.: Fucosylated glycoproteins in Chinese hamster metaphase chromosomes
137 NARAIN, Y. and FREDGA, K.: A hybrid zone between the Hällefors and Uppsala chromosome races of *Sorex araneus* in central Sweden
249 OJA, T. and JAASKA, V.: Isoenzyme data on the genetic divergence and allopolyploidy in the section *Genea* of the grass genus *Bromus* (Poaceae)
117 ORLOV, V., BULATOVA, N., KOZLOVSKY, A., NADJAFOVA, R. and SEARLE, J.B.: Karyotypic variation of the common shrew (*Sorex araneus*) in European Russia: preliminary results
11 PARDUCCI, L., SZMIDT, A.E., VILLANI, F. WANG, X.-R. and CHERUBINI, M.: Genetic variation of *Abies alba* in Italy
93 PETERSEN, B.L., MØLLER, M.G., STUMMANN, B.M. and HENNINGSEN, K.W.: Clustering of genes with function in the biosynthesis of bacterio-chlorophyll and heme in the green sulfur bacterium *Chlorobium vibrioforme*
109 POLYAKOV, A.V., VOLOBOUEV, V.T., BORODIN, P.M. and SEARLE, J.B.: Karyotypic races of the common shrew (*Sorex araneus*) with exceptionally large ranges: the Novosibirsk and Tomsk races of Siberia
1 RASMUSON, M.: Review: Polygenes revisited
25 SAKAIDA, K., BANNO, Y., NAKAMURA, T., KAWAGUCHI, Y., KOGA, K. and DOIRA, H.: Aberrant meiotic behavior of chromosomes due to reciprocal translocation in the E^D mutant of the silkworm, *Bombyx mori*
169 SZAŁAJ, K.A., FEDYK, S., BANASZEK, A., CHĘTNICKI, W. and RATKIEWICZ, M.: A hybrid zone between two chromosome races of the common shrew, *Sorex araneus*, in eastern Poland: preliminary results
277 TRAUT, W. and CLARKE, C.A.: Cytogenetics of a moth species with a low chromosome number, *Orgyia thyellina*
219 WALLACE, B.M.N.: A pachytene karyotype of the common shrew (*Sorex araneus*)
19 WEIDEMA, I.R.: Inheritance of the isozyme isocitrate dehydrogenase (IDH) in a natural population of polyploid white clover (*Trifolium repens* L.)
83 WILLIAMS, G.O. and BANBOYE, E.R.D.: Genetic load in chromosomes 3 in a population of *Drosophila melanogaster* in Lagos, Nigeria
183 WÓJCIK, J.M., WÓJCIK, A.M. and ZALEWSKA, H.: Chromosome and allozyme variation of the common shrew, *Sorex araneus*, in different habitats
177 WYTTENBACH, A. and HAUSSER, J.: Microsatellites in *Sorex araneus* (Insectivora): highly polymorphic markers for population genetic studies within and between chromosomal races. (Brief report)
209 WYTTENBACH, A. and HAUSSER, J.: The fixation of metacentric chromosomes during the chromosomal evolution in the common shrew (*Sorex araneus*, Insectivora)
97 ZIMA, J., FEDYK, S., FREDGA, K., HAUSSER, J., MISHTA, A., SEARLE, J.B., VOLOBOUEV, V.T. and WÓJCIK, J.M.: The list of the chromosome races of the common shrew (*Sorex araneus*)
